

## 2008-2009 Oklahoma District Report Card with API Index

Dear Parents,

I am pleased to provide the Oklahoma District/School Report Card, detailing educational information important for administrators, teachers, parents and the public. Included in this report is the Academic Performance Index (API), established by Title 70 O.S. § 3-150, along with additional factors that contribute to a school's or district's success. This information is provided not only as a snapshot of current performance, but also as a map leading to the continued progress and success of Oklahoma schools and our children.

--Sandy Garrett, State Superintendent of Public Instruction

This report contains data for all sites. Mathematics and reading scores are based on students' performance on state-mandated Criterion-Referenced Tests (CRTs). Tests are administered to students in grades 3-8, and those students currently enrolled in Algebra I & II, Geometry, Biology, English II & III, and US History. Each student group is required to meet or exceed the performance targets determined by the state. Completion data are based on all students' attendance rate. The API Scale encompassed scores in a range of 0-1500. The state average API was 1180. Statewide Performance Targets for 2008-2009 were: Math API-932, Reading API-914, Percent of students tested-95%, Attendance Rate API-664 (91.2%) and Graduation Rate API-882 (67.8%).
